

PLACE

Patient-Led Assessments of the Care Environment

An opportunity for carers to become involved in this year's Patient-Led Assessments of the Care Environment (PLACE) with Doncaster and Bassetlaw Teaching Hospitals NHS Foundation Trust.

PLACE gives patients, carers, and members of the public the opportunity to visit hospital areas and help assess things such as:

- cleanliness
- food and refreshments
- privacy and dignity
- accessibility
- how well environments support people living with dementia or disabilities

The aim is to bring the voice of patients and carers directly into conversations about how hospital environments can be improved. Previous involvement from carers has been valued by the Trust, and carers are again being invited to contribute this year.

Assessment dates:

1. Monday 5 October - Montagu Hospital, Mexborough
2. Thursday 8 October - Bassetlaw Hospital
3. Tuesday 13 October - Doncaster Royal Infirmary
4. Friday 16 October - Doncaster Royal Infirmary

You can attend for a full day, a morning, or an afternoon. Training, refreshments, and lunch will be provided, and travel support is available through the Trust's volunteer arrangements.

If this is something that may be of interest, kindly let us know as soon as possible, together with:

- which date(s) you could attend
- whether you are available for a full day, morning or afternoon
- any dietary requirements
- any accessibility requirements
-

Expressions of interest will be shared with the Trust, who will coordinate the assessment teams and provide further information to those taking part.

There is absolutely no obligation to get involved, but it is a valuable opportunity to help influence and improve the environments in which local patients, carers and families receive care.
